# An automated freight auditing managed solution

The smarter way to control your logistics spend and maximize auditing efficiency, visibility and cost savings

Trimble Freight Audit automates the auditing process to eliminate inefficiencies, reduce manual tasks, and ensure contract and payment terms compliance - a smarter, strategic approach to logistics.

- **Automation & visibility**
  Gain full control over your freight audits using automation from invoice bookings to real-time exception reporting.

- **Compliance & accuracy**
  Helps reduce risks by ensuring alignment with carrier contracts and eliminating payment errors with greater accuracy.

- **Customizable reports & dashboards**
  Delivering valuable insights tailored to specific roles for more informed decision-making.

- **Simplification**
  Our platform make freight audits easy with user-friendly tools that organize and visualize complex logistics data.

- **Seamless Freight Audit + payment integration**
  Choose to add our preferred managed transportation payment service option for an efficient one-stop solution.
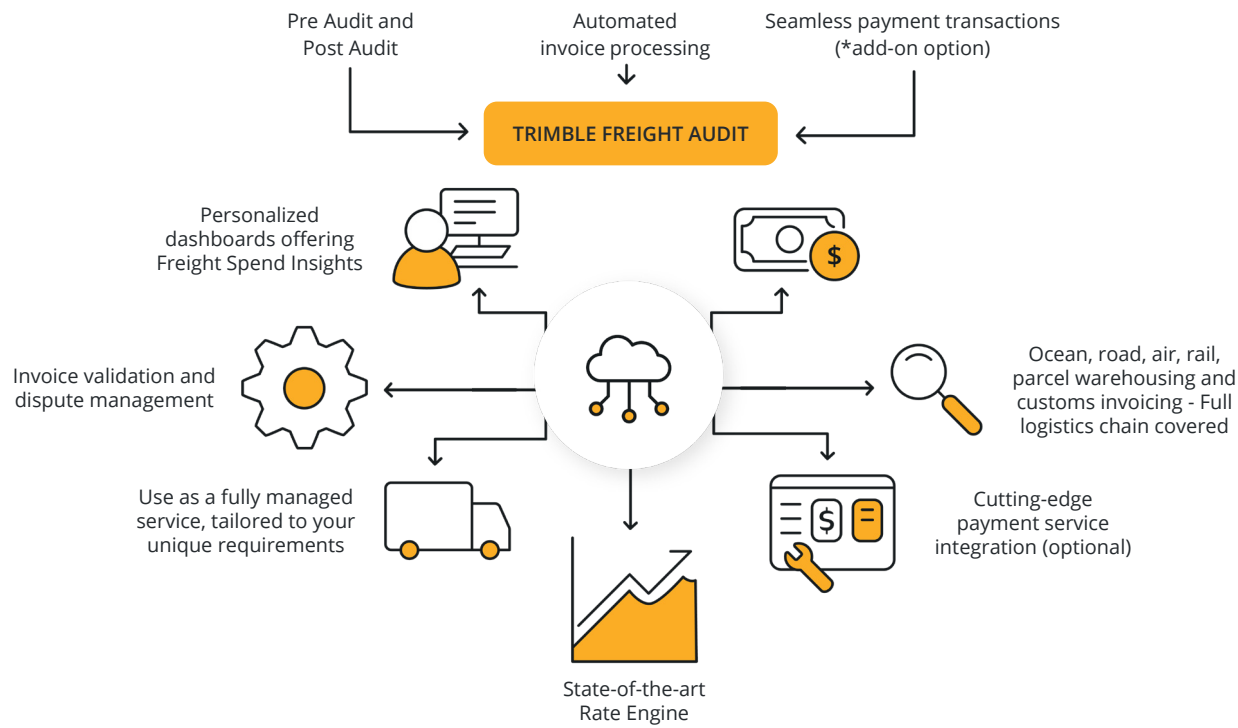

"**Checking invoices is at the core of the solution, but there are so many things you can do with the data you generate. It requires a fair amount of effort to get up and running, but once you have it, you never want to do without it.**"

– Head of Global Logistics Procurement, Multinational Sports Apparel Company

## How It Works
**Freight Audit (Managed)**

## A fully optimized, integrated freight audit & payment option

Trimble Freight Audit, in partnership with Triumph, also offers an optional add-on service for managing transportation payments with greater ease and accuracy. Enabling a secure, frictionless, automated freight audit and payment experience option designed to increase efficiency, reduce costs, and improve financial visibility – allowing Shippers and LSPs to transact with confidence.

| Benefit | What It Delivers |
|---------|------------------|
| Stronger Network Connectivity | Leverages Triumph's carrier payment infrastructure with Trimble's audit capabilities for a seamless end-to-end workflow |
| Enhanced Cash Flow & Transparency | Real-time insights and visibility into freight spend and receivables for improved planning and reduced discrepancies |
| Automated Invoice Processing | Cuts down manual tasks, speeds up payments, and minimizes disputes and operational friction |
| Compliance & Security | Delivers secure, regulatory-compliant payments and reduces financial risks |
