

SOLUTION OVERVIEW

Single source of truth for rates and surcharges

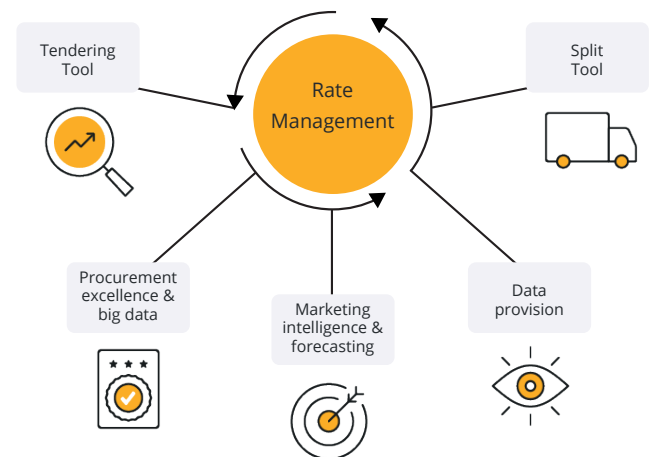

Unlock full transparency of your rates and contracts across all transport modes

Trimble Rate Management has the power to deliver full transparency of rates and contracts in real-time, and fast access to complex calculations and information, in a highly secure online environment.

- **Full transparency** of rates and contracts in real-time. Access to current rate data, minimizes risk of mistakes and delivers significant time and resource savings
- **Save shipment costs** by assessing economical transport modes. Complex rate comparisons are simplified and deliver an ideal blend of price and service levels
- **Digitize the rate approval process** with your carriers via workflows to avoid manual workload and ensure use of carrier-validated rates
- **Secure by design**, Rate Management prevents uncontrolled access to rate data and provides a history of rate revisions

“Rate Management is the perfect solution for companies like ours that use and maintain large numbers of freight rates, for all modes of transport.

- Senior Purchase Manager, Chemical Production Company

- Centralized rate and surcharge management
- Rapid rate query engine
- Secure single sign-on
- Customizable rate tables & structures
- Enhanced data handling flexibility
- Seamless integration and ERP support
